Motorcycle Club

October, 2025

TUCSON
ARIZONA

Monthly meetings: 2nd Sunday of each month

When: Breakfast @ 8:00 AM, Meeting @ 8:30 AM

Location: Golden Corral Buffet & Grill 6865 N. Thornydale Road Tucson, AZ

September meeting notes:

We had a small crowd today. However 2 visitors, Matt and Keith. Keith joined our club. He heard about us through the internet. Roger reminded us to think of personal protection (helmet, gloves, jacket w/armor, chaps, boots, etc.) as insurance. You have it just in case you need it and never know when you will use it.

Reminder about road clean up Sunday October 19th - Taco Sunday to follow. Also Tuesday, Nov 11th Veterans Day Parade. We are scheduled to ride as a group.

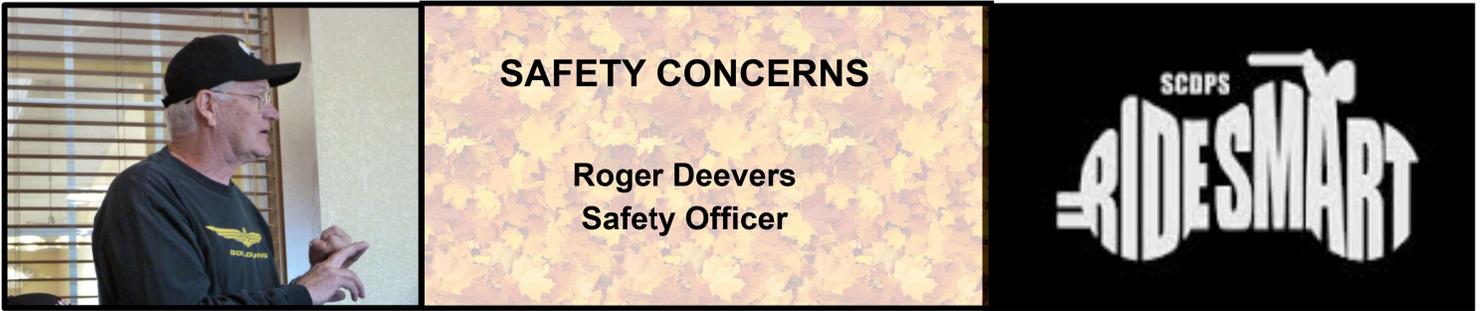

International Rally July 19-22, 2029 in Franklin Park.

We passed around a list- Christmas party attendees, T-shirts and rides. As far as rides go we need to think about where we should ride to- hosts-do we want to go to places of interest (Titan Missile Museum, Cochise Stronghold) and entertainment (Gaslight Theatre/ Musical Hall, Pinnacle Peak (with a tie) and watch gun fight show after, Roadhouse Cinema? Overnight trips (2-3 days). Lots of options.

Send in your requests.

Cecilia Murch

DON'T GET STUCK

In this part of the country there exists a type of cactus often referred to as the "jumping cactus." They are known as a jumping cactus because they have the joint attachment that are very loosely connected. The joints then will attach to a hapless passersby as they brush slightly over the cactus no matter how slight and they will stick. That is the reason why many people think that the cactus jump. The cactus are also referred to as the "teddy bear cactus" because of their fuzzy appearance. All cactus are nothing to mess with. If any cactus must be handled, extreme caution must be observed or unpleasant consequences will be realized.

Can these otherwise benign plants have any relevance to us as motorcycle riders? Oh, yes they can. The idea of losing control and riding off into a field of many varieties of cactus should conjure up a vision of, OUCH! But remaining on the road there are situations where it seems something jumps out at you and you get stuck. That truck or SUV might be hiding another vehicle that could pull out in front of you even though the shielding vehicle is granting you right of way. It seems we must always be suspicious and rightfully so. On one occasion a approaching pickup truck was turning left in front of me. Something told me that there was more. Sure enough the truck was pulling a cargo trailer that was obscured from view by the truck. I could have maintained my speed and collided with the trailer, but being suspicious saved what could have been a very unpleasant event. I didn't get stuck.

While knowing what is going on behind you is important, riders must focus their attention ahead and farther down the road. Any distraction can remove ones attention long enough to cause a panic situation or something even more serious.

Keep up those well establish good habits that have so often been mentioned so you don't get stuck.

Ride safe.. Roger
